

WELCOME!

Our Meeting Will Begin Just After 1130
(Please keep your audio muted to begin meeting)

San Diego Post

San Diego Post

A grayscale, artistic photograph of a ship's mast and rigging against a cloudy sky. The mast is a dark, diagonal line extending from the top left towards the center. The rigging consists of various ropes and pulleys. The background shows a hazy, overcast sky with soft, diffused light.

ICP Building Solutions Group offers a comprehensive range of building envelope products along with class-leading cementitious and sports surfacing systems. Built on the foundation of Innovations that Improve®, ICP offers building solutions that set the standard in their markets and present unparalleled value to our customers.

DRY ERASE PAINT

Clear dry erase paint for classrooms and collaborative, creative spaces

RESINOUS FLOORING

Extensive line of resinous flooring for everything from cafeterias to classrooms to parking garages

ROOF COATINGS

For energy efficiency, aesthetics & extending the life of the roof

SPORTS SURFACES

Including tennis, basketball, indoor and outdoor track and turf adhesives

DISINFECTANTS & CLEANERS

Disinfectants and cleaners for daily cleaning or remediation and restoration

SCUFF RESISTANT PAINTS

Highly scuff resistant decorative paint for high traffic common areas

SPECIALTY PAINTS

Skid free walkways to prevent slip and falls

STONE & MASONRY

Impregnating stone sealer for long term protection for natural stone, tiles, pavers, concrete, brick and grout

INSULATION

High volume, low pressure spray foam to save on energy costs.

ICP has assembled today's most advanced line of products for professional environmental restoration.

Our products address everything from cleaning and disinfecting, to coating, remediating, and mitigating a host of environmental hazards. ICP offers a comprehensive line of solutions to fit every project and we provide one source for class-leading solutions and the peace of mind that comes from working with the established leader in the field.

40+ YEARS OF EXPERTISE

- Remediation Viruses
- Contaminated Spaces
- Mold & Water Damage

A TRUSTED SOURCE

- Fiberlock And Benefect
- Leaders In The Marketplace

EPIDEMIC EXPERIENCE

- Covid-19
- Avian Influenza
- SARS
- H1N1 Influenza
- Ebola
- Norovirus
- Legionella
- Many More

TRAINING & SUPPORT

- Education & Training
- Consulting
- Webinar Series
- Marketing Communication

ICP is a 40 year provider of class-leading, field tested disinfection products. With both CONVENTIONAL and BOTANICAL disinfectants, we lead the industry with product options that fit all buying preferences and application methods.

CONVENTIONAL

ShockWave has been formulated, and tested on more surfaces, in more situations, and to kill more organisms than any other product.

BOTANICAL

Decon 30 is the first & only authentically botanical disinfectant technology on the market today.

Application & Delivery Methods

Facilities are facing an urgent need to undergo aggressive disinfection protocols in order to reopen and reduce the risk of further spread. These protocols involve professional cleaning and disinfecting on weekly and even daily basis. ICP's EPA registered products make this task more manageable through their compatibility with ALL of the following disinfectant delivery methods:

- Disinfectant Wipes
- Trigger Spray Bottles
- Compression Sprayers
- Backpack Units
- Foaming Applicators
- Electrostatic Sprayers
- Cold Mistlers / Foggers
- Airless Spray Units

Fiberlock Technologies is the leading manufacturer of products used to remedy environmental, safety, and health hazards offering a full set of solutions to address the many needs in the abatement and remediation industry.

For over 35 years, Fiberlock has lead the field creating an advanced suite of restoration products to address the full spectrum of environmental health and safety issues. No other product line has as diverse a range of solutions or such complete systems to meet the demands

faced by today's environmental restoration pros. Whether it's disinfection, asbestos, lead, mold, fire damage, dust control, or containment systems, Fiberlock has tested and proven products that mitigate hazards and provide safety and assurance to affected businesses, homes, and families.

Fiberlock has supplied environmental control products to the Pentagon, Disney World, IBM, Mobil, Amtrak, Dupont, The National Gallery of Art, Harvard University, NASA, General Electric, AT&T, General Motors, and thousands of private homes.

ShawContract®

Making a Smarter Impact

More than a flooring manufacturer

When designing flooring for government spaces, we carefully consider:

- movement
- logistics
- maintenance
- installation
- procurement
- public fundings
- broad diversity of usage

We support our partners in this segment with a dedicated team of government experts, **with associates and operations all over the world**. Our insights lead to simple sourcing solutions that ease procurement and installation, while our wide range of **American-made products** supports the Buy America Act.

Our Solutions

We take responsibility for every step of the process

We are the **largest, most vertically integrated carpet manufacturer** in the world, ensuring:

Reclamation

At the end of its useful life, we'll reclaim and recycle EcoWorx® backed carpet at no cost to you.

Manufacturing

On-time production.

Made in USA

Manufactured in the United States.

Customer Experience

Consistency in quality.

Processing

Cost control and cost stability.

Distribution

On-time delivery with one of the largest private fleets in the nation.

Material Production

Single source accountability.

Shaw Contract can be the single source for all your flooring needs. Our product breadth includes:

- Adhesive
- Carpet Tile
- Entryway Broadloom & Tile
- Hardwood
- Resilient - LVT & Sheet
- Stair Treads
- Turf
- Trims and Transitions
- Performance Broadloom
- Porcelain Tile

Our Solutions

Solutions for your unique project

- **Visualization services** is available to create rendering files based on floor plans, design inspirations or sketches
- Comprehensive **moisture system** allows us to work with you to address your specific needs from basic to extreme conditions
- Our **Quick Ship** program provides you with hundreds of carpet tile, broadloom and LVT styles shipping in two weeks or less to fast track your project

Our Solutions

We believe everyone should have access to sustainable products.

Our view of sustainability encompasses not only the environmental health of our products and our operations, but also how our products impact human experience.

- Cradle to Cradle Certified™ Products Program

Material Health

Material Reuse
(Product Circularity)

Renewable Energy & Carbon Management

Water Stewardship

Social Responsibility
(Fairness)

Procurement for Government Spaces

We understand the product selection and procurement phase can be time intensive, partner with Shaw Contract to **add time back into your timeline - saving funds** for what matters most.

- Actively held a **GSA Schedule** for 25 years - **GS-03F-049AA**

SAME San Diego Post 2021 NAVFAC Southwest Update

**CAPT Michael Oestereicher, P.E.
Civil Engineer Corps, United States Navy
Commanding Officer, NAVFAC Southwest**

**** Data contained herein is based on the best available information and is subject to change**

10 Feb 2021

Overall Classification: UNCLASSIFIED//FOR OFFICIAL USE ONLY

National Rebalance to the Pacific

- Includes

- 40 nations
- 60% of the world's population
- More than half of the world's surface
- 30% of the world's GDP
- 70% of the world's oil transits through the Strait of Malacca

- Top 4 trading partners

- Canada, China, Mexico, Japan

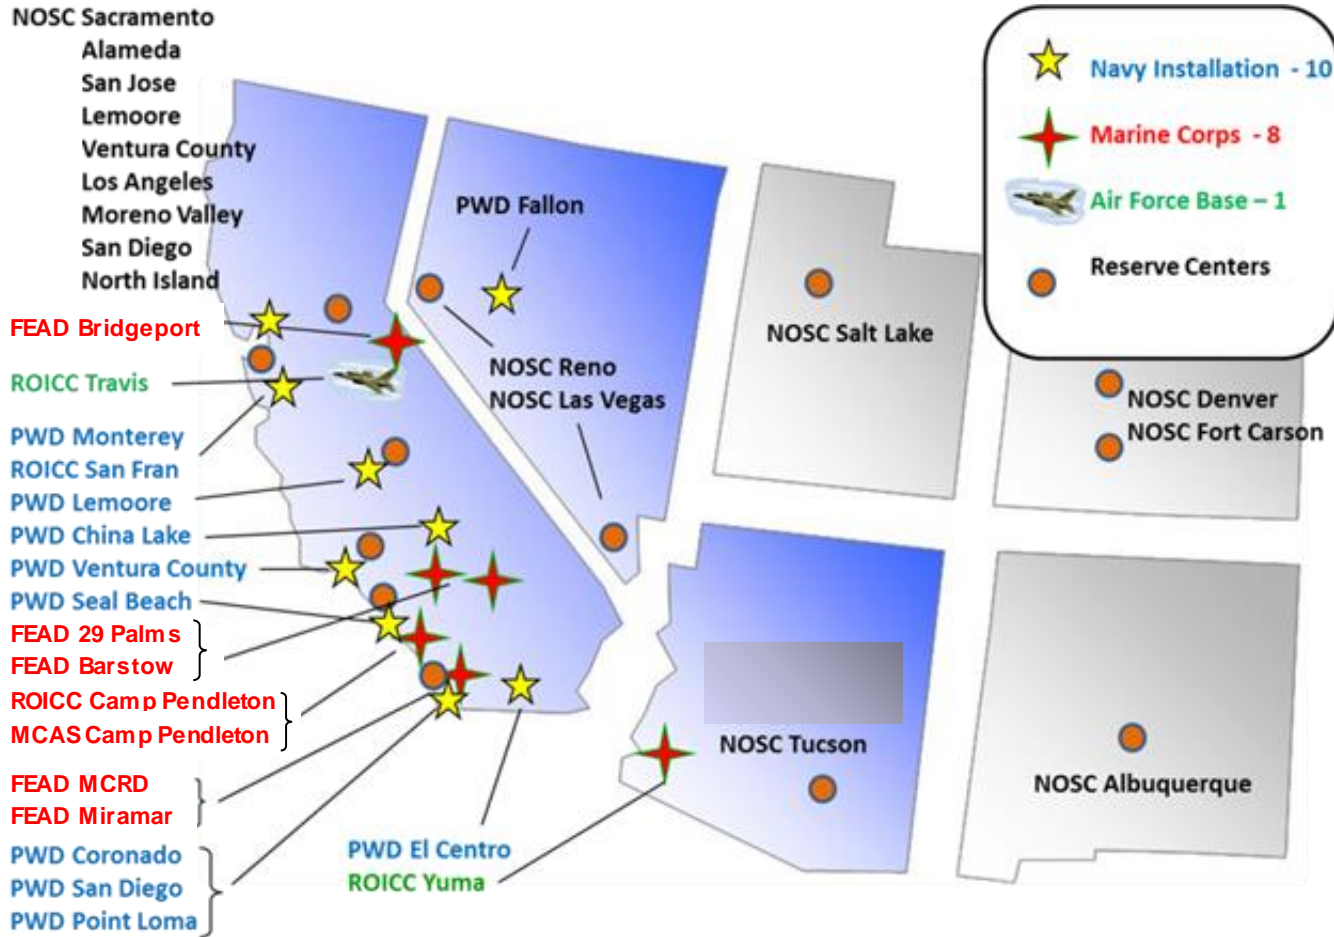

- 6 largest militaries

- China, U.S., India, Russia, North Korea, South Korea

60% of the Fleet to the Pacific

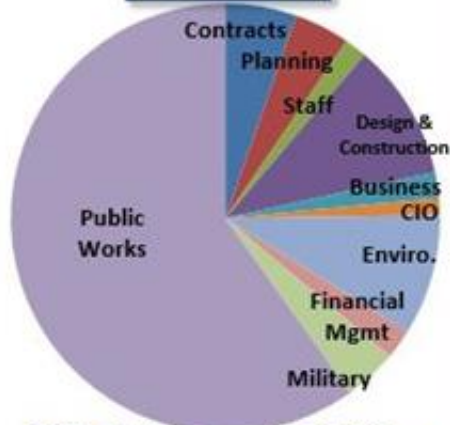

Southwest Region Area of Responsibility

Coastal | Desert | Marine Corps
19 offices assigned to three Project Management Divisions (PMDs)

NAVFAC Southwest

Staffing

3366 Civilians and 140 Military at 19 locations

MISSION

NAVFAC is the Naval Shore and Expeditionary Systems Command that:

- Plans, builds, and maintains sustainable facilities.
- Delivers environmental, utilities and other base services.

WHAT WE DO

The Southwest's naval shore construction and contracting agent delivering over \$2 billion of annual business and facilities lifecycle sustainment. Integrated team of multi-disciplinary professionals with expertise in planning, real estate, design, construction, utility operation, energy solutions, facility services, transportation and weight handling.

Major Programs

- Littoral Combat Ship
- USMC Infrastructure Reset
- Unmanned Systems
- KC-46 Pegasus Tanker
- Joint Strike Fighter
- Naval Special Warfare - Coastal Campus
- Fallon Range Training Complex

Core Competencies

- Facilities Planning, Operations & Sustainment
- Environmental Compliance & Restoration
- Shore Anti-Terrorism Force Protection
- Utilities and Energy Management
- Specialized Technical Services
- Design, Repair & Construction
- Real Estate

Supported Commands

- Navy Installations Command
- Navy Fleet and System Commanders
- MCI-West, TECOM & USMC Units
- Air Force
- Federal Agencies and non-DOD tenants

NAVFAC Name Changes

- **NAVFAC is now Naval Facilities Engineering **Systems** Command to accurately reflect the command's mission and authorities.**
 - Reinforces NAVFAC's mission as the naval shore facilities, base operating support, and expeditionary engineering systems command.
 - Clarifies NAVFAC's alignment to ASN (RD&A) as the Navy and Marine Corps acquisition and technical authority for construction and facilities engineering programs, developing, procuring, and sustaining shore facilities and environmental solutions, and to ASN (EI&E) as the Navy and Marine Corps real estate acquisition, management, and disposal authority.
 - Improves clarity of mission with the public, stakeholders across the fleet and industry, and throughout the broader shore infrastructure community and Naval Research and Development Enterprise.
 - Brings NAVFAC in line with the naming convention of other Navy systems commands.
- **Capital Improvements (CI) is now **Design & Construction** (DC)**
- **Acquisition (ACQ) is now **Contracting** (CON)**

NAVFAC SOUTHWEST HISTORICAL WIP

Initiatives

- **Public Works Optimization: Shift in execution of projects <\$5M to the installations**
 - Increased scope (quantity and competitiveness) of contracts available at field offices with assistance from regional team
- **Early Contractor Involvement**
 - Bring KTR in at design start - looking to pilot on P-025, MQ-25 Hangar at NBVC, starting in FY21, and P-315, Mess Hall at MCRD, in FY22
- **OICC China Lake**
 - Responsible for \$2.4B Earthquake Recovery MILCONs & \$340M in FY20 O&M funding
 - Post-award focused
- **Training to FEADs**
 - ET Bootcamp (CM Bootcamp to follow)
 - CM Qualification Standards (ET standards to follow)

Project Management

- **NAVFAC is reforming project management processes and competencies to improve project delivery and execution.**
 - Released the Project Management Community Management Framework and Certification Guidelines in June 2020. This framework establishes five key PM competencies, a focused project management training curriculum, and an internal certification program. The focus moving forward will be rolling out this training curriculum and ensuring that our project managers are trained and certified in accordance with this framework.
 - Reforming our D&C PM Manual to align with the Project Management Institute's Guide.
 - NAVFAC is investing more resources in project management to ensure PMs are engaged throughout the entire project lifecycle (planning-design-construction-maintenance).

Cradle To Grave

Partnering

- NAVFAC recently updated its Project Partnering Instruction to improve use of partnering and performance on construction contracts. The updated instruction:
 - Incorporates feedback and best practices from industry
 - Established processes for improving communication
 - Improves collaboration to ensure success throughout the life of a project
 - Places responsibility on the PM, pre-award, and the FEAD Director, post-award

MINDSET - to improve communication, trust, and problem solving

COMMITMENT - to focus on the shared project goals

PROCESS - to establish the right mindset and commitment for project success

eCMS

- **Owners Module that collaborates between KTRs (AE and construction) and NAVFAC for Submittals, RFIs, Daily Reports... thru eCMS.**

- KTR can still use their own system to manage their internal efforts

- **Applicability:**

- All MILCON Projects awarded after 30 June 2020

- All Projects > \$1,000,000 after 1 October 2020

- All >SAP (>\$250k) min as Electronic Share Drive

- All Projects < \$250K encouraged, but optional

- **Access and training by project – COR to request**

DBB – Spec Section 01 31 23.13 20

DB – RFP Section 01 31 19.05 20

eCMS Requirement As Part Of RFP – GOAL To Maximize Use!

eCMS Roll-out Schedule

- **Jan 21: Implement eCMS in the field**
- **Every FEAD registering projects in eCMS – full implementation will be pressed.**
 - Training to the team at PAK or Precon
 - Currently (18) projects registered, another (13) waiting to be input into the system
- **Link below has a manual you can download as well as training tutorials:**

https://www.navfac.navy.mil/products_and_services/ci/about_us/capital_improvements_documents.html

Must Log In eCMS Every 45 Days To Maintain Account

eCMS & KPIs for Post-Award Metrics

- **Green Zone Checklist – in eCMS (Yes or No checklist)**
 - Contractor mobilization
 - Pre-construction submittals
 - Pre-Construction Conference or PAK
 - Partnering escalation matrix
- **RFI's – in eCMS**
 - Status
 - Response time
- **Contract Mod's and Proposed Changes – in eContracts (Tableau reports)**
- **On-time index – in Construction Status Reports (CSRs)**
- **No. of Non-Compliance Notices – in eCMS**
- **Partnering team health surveys**

Management Dashboards

Cybersecurity Maturity Model Certification (CMMC)

• DFARS Clause 252.204-7021 Cybersecurity Maturity Model Certification Requirement

- DOD Implementing in a phased roll-out
- Until 30 Sep 2025, not required unless
 - SOW requires specific CMMC level, AND
 - Approved by OUSD(A&S)
- On 1 Oct 2025 becomes mandatory except for contracts solely for Commercial Off-the-Shelf (COTS) items

• **Should not be in current RFPs, contracts, watermarks on drawings**

- Contact your Contracting Officer if you find the requirement in your documents

Future Requirement

Construction Contract Modifications

• NAVFAC SW Improvements

- **Lean modification process for \leq \$250K**
 - Scope developed jointly in field
 - No IGE – mark-up contractors proposal
 - CMs to negotiate as Contracting Officer's Authorized Representative (COAR) & KO signs as approving official (with funding in hand)
- **Modification Processing Time – establishing controls & new reporting tools to**
 - Monitor modification lifecycle & outline expectations
 - Mandate use of decision tree if no resolution and use of partnering
- **More designers on-site: Navy and A/E (PCAS)**

• Proposed Contractor Improvements

- **Time Impact Analysis (TIA) *MUST* be submitted in a timely manner**
 - Lack of timely and complete TIA submissions has caused contract modifications to be negotiated without time.
 - In budget constrained projects, this can cause a contract to be put on hold to allow for reprogramming or necessitate scope reductions late in contract duration.
- **If requesting other than NAVFAC standard construction overheads, submit proposed overheads and substantiation for evaluation and negotiation **BEFORE** first change**

Field Acquisition Strike (FAS) Team

- **Our goal is to improve Performance to Plan to meet our Supported Command's mission need dates every time.**
- **The purpose of the dedicated FAS Team is to assist FEADs in:**
 - Contract modifications that impact the critical path by 90 days or more
 - Contract modifications and Request for Equitable Adjustments (REAs) that are greater than one year old
 - Complex Time Impact Analysis (TIAs) that add 90 days or more to the Contract Completion Date (CCD)
 - Contract modifications, REAs or TIAs on contracts that have passed the CCD
- **Team composition: a dedicated CM, ET, acquisition member(s), and support from Core**

Cybersecurity Implementation

- **UFC 4-010-06 (Cybersecurity of Facilities Related Control Systems)**
- **UFGS 25 05 11, Cybersecurity for Facility-related Control Systems**
 - Tri-service directive for all projects in FY17 and beyond
 - Supersedes UFGS 25 50 00.00 20
 - Applies to Confidentiality-Integrity-Availability (C-I-A) impact levels designated as “low-low-low”
 - C-I-A impact levels above “low-low-low” requires supplemental guidance by NAVFAC Command Information Office (CIO) for Navy and Marine Corps.
- **Additional Future Guidance**
 - **Tri-Service Unified Facility Guide Specification (UFGS)** containing detailed cybersecurity guidance for C-I-A impact level of “medium-medium-medium” is planned for release later in 2021.

Full Transparency on Projects & Acquisition Tools

Requesting Visit to NAVFAC SW

- **NAVFAC SW has specific protocol and a process for contractors to follow when submitting visit requests.**
- **Protocol was developed to:**
 - 1) Provide industry representatives with a fair and equal opportunity to contact the command**
 - 2) Ensure minimal disruption to the Navy mission.**
- **The Contractor Visit Protocol can be found in the NAVFAC SW Public Web Site at the following link:**
https://www.navfac.navy.mil/navfac_worldwide/pacific/fecs/southwest.html
- **To request a contractor call/visit, personal visit, or social call, send an e-mail to the command's Contractor Visit Coordinator at:**
NAVFAC_SW_Contractor_Visit_Coordinator@navy.mil
