## Additional Editorial Features

Every issue also welcomes submissions for Spotlight Articles and Viewpoints.

- » Viewpoints are feature articles within the following areas: Business Development, Research & Innovation, Training & Leadership, and Contracts & Acquisition. They should engage thought leaders and provide readers with unique insights, lessons learned, and understandings on topics of importance.
- » Spotlight Articles are big-picture topics that may not be represented on the Editorial Calendar or may be better presented in a longer-form, feature presentation. Past examples include Expeditionary Engineering, Joint Basing, USACE District Acquisition, and Engineering Programs in Europe.

In addition, each issue of *TME* includes Reflections from industry thought leaders, IGE Insights on SAME's multidisciplinary industry-government collaborations, and From the Field covering technical and strategic perspectives from active servicemembers.
