2023 Scholarship Applications

Dear Educators and Counselors:

As the Education and Mentorship Committee Chair for the Cape Fear Post of The Society of Military Engineers (SAME), I would like to inform you of an excellent opportunity for your high school students aspiring to become engineers. The Cape Fear Post has annually awarded a cash scholarship to one outstanding area high school senior that is planning to pursue an engineering, architectural or STEM related degree in college. The Cape Fear Post will award a four-year college scholarship valued at \$4,000, made in four equal \$1,000 annual increments. Scholarship money in years two through four will be contingent on the recipient maintaining acceptable performance in their academics (GPA of 3.0 or higher) and extracurricular activities (evidence of continued and additional participation). The scholarship will be awarded to the most deserving applicant based on academic achievement, participation in extracurricular activities, and affiliation with SAME.

The applicant must submit a completed application by **April 7, 2023**. To be eligible for a scholarship the applicant must meet the following requirements:

- (1) Is a high school senior planning to enroll in engineering, architectural, or a similar technical field curriculum at an accredited college or university. College enrollment must be planned for the 2023/2024 school year.
- (2) Have a minimum of a B average (3.0 on 4.0 scale).
- (3) Provide a completed application form to include; a copy of high school transcript; a copy of SAT/ACT results; and an approximate 500-word essay.
- (4) Arrange for scholarship application reference form to be completed by high school advisors, academic instructors, or immediate work supervisors (maximum of 3) for delivery to Mr. Chris Mooring, no later than April 7, 2023.

Application packages and Reference forms can either be mailed to the address shown below or submitted directly to email shown below.
