

Certificate of Completion for Professional Development Hours (PDH)

Activity: **Professional Ethics for Engineers**

Date: **February 9, 2024**

Time: 3:30 – 4:30

Location: University of Texas at Arlington

Topic: This 60-minute course is designed to define engineering ethics and explore true case studies from the NSPE Board of Ethical Review. By the end of the course, you will have had the opportunity to think about your own professional ethics and become more confident to handle ethical situations that arise.

Content:

- Define Professional Ethics
- Develop a Personal Code of Conduct
- Analyze a NSPE Case Study
- Learn about the available resources on ethics

Objectives:

- Learn to recognize ethical situations faced by engineers today
- Analyze the issues of an ethical situation
- Resolve the situation in a creative and professional manner

Prepared by: Stephanie Buckingham, CPTD, PHR; Robert F. Pence, PE, BCEE
