2. ROUTE 885 TUNNEL IMPROVEMENTS
3. AIRFIELD PAVEMENT REHABILITATION
4. TAXIWAY G REHABILITATION
5. TERMINAL ROOF REPLACEMENT
6. HANGAR 2 IMPROVEMENT

An aerial photograph of the Pittsburgh International Airport terminal, overlaid with a blue tint. The terminal building is a long, multi-story structure with several jet bridges extending from it. Two Allegiant aircraft are parked at gates, with their tails facing the terminal. The aircraft have the slogan "Travel is our deal." and the Allegiant logo. In the background, a large parking lot is filled with rows of cars. The foreground shows the tarmac area with various ground support equipment and vehicles. The text "Pittsburgh International Airport Terminal Modernization Program" is overlaid in white on the left side of the image.

Pittsburgh International Airport Terminal Modernization Program

Terminal modernization program: two components

New Terminal

A new terminal that consolidates landside & airside operations with enhanced security and a tech-forward approach.

New Multi-Modal Complex

A new ground transportation center, parking garage, parking lots, and access roadways.

Approximately 93% of the terminal modernization program contracts have already been awarded

PIT Terminal Modernization Program and Airside Renovations remaining contracts

1. Demolition – TBD
2. Parking Lot Modifications and Shelters – Spring 2024

* Multi-Modal Complex Contracts Awarded

Thank You
