

The Institute for Program Solutions (DBA: iPrograms)

Dr. Bill Bersing, PE, CCM, CEO/ President

Taylor Cranwell, Sr. Operations Manager

Shaikh Matin, PE, Sr. Program Manager

Overview

- Established in 2003, **iPrograms** delivers innovative solutions for complex Construction and Engineering programs worldwide.
- Supporting the DOD and global Military and Humanitarian projects, we specialize in PMCM services.
- Notable projects include NIST B245 Modernization (\$480M), NAVFAC EURAFSWA-Dubai Ports RFP development, and QA/QC and CPM Scheduling training. We have provided CM supports to our clients in Europe, the Middle East, and Africa.

The Institute for Program Solutions (DBA: iPrograms)

Objectives

- iPrograms aims to expand our work with the U.S. Army Corps of Engineers (USACE) directly, leveraging our expertise in Engineering and Construction Management Services to support their critical missions.
- Additionally, we seek to grow partnerships with companies holding active contracts in large engineering and construction programs, where our specialized services in the areas below can add measurable value:
 - PrM/CM Services
 - Construction Claims (REA/TIA)
 - Construction/ Program Scheduling (SME/Training)
 - Cost Estimating and Data Analytics
 - Civil Engineering Services

The Institute for Program Solutions (DBA: iPrograms)

Partnering

- iPrograms is seeking to team with organizations that complement our core capabilities and share our commitment to delivering high-quality Engineering and Construction Management Services.
- We are interested in teaming with partners who value integrated approaches, innovative solutions, and a shared focus on delivering successful project outcomes.
